

# MODIS Applications in Fire

Nicole Capewell

March 8, 2016 GEOG 457

## Application #1 – Human Caused Fire

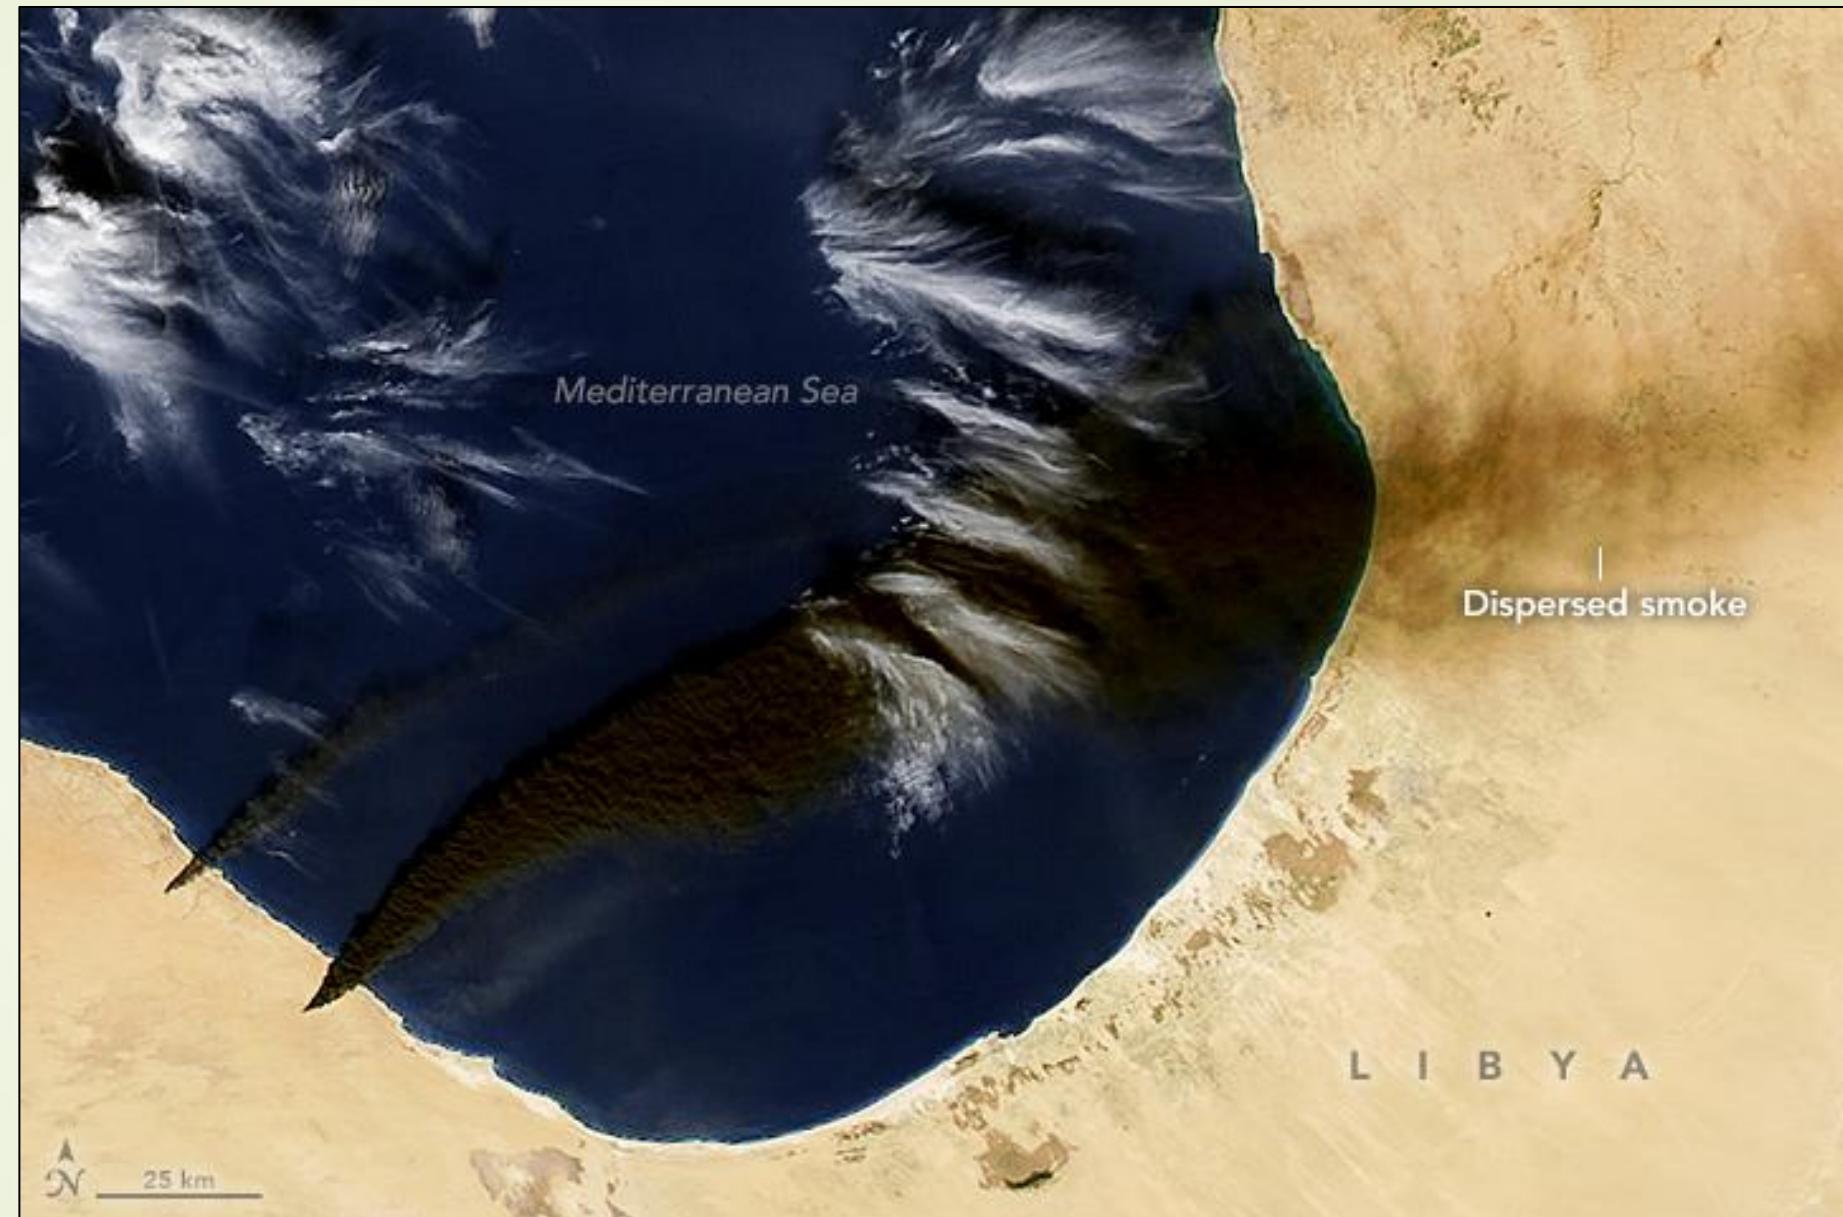

Aqua satellite MODIS

January 6 2016

- Fires at an oil production and storage facility near Sidra
- Five storage tanks were burning, each containing 420,000 – 460,000 barrels of oil

Bands typically used:

- 3 (459-479nm),
- 4 (545-565nm),
- 5 (1230-1250nm),
- 6 (1268-1652nm) and
- 7 (2105-2155nm)

Pixel Size: 500m

Application #1 –  
Human Caused Fire

Terra satellite MODIS

January 7, 2016  
(one day later)

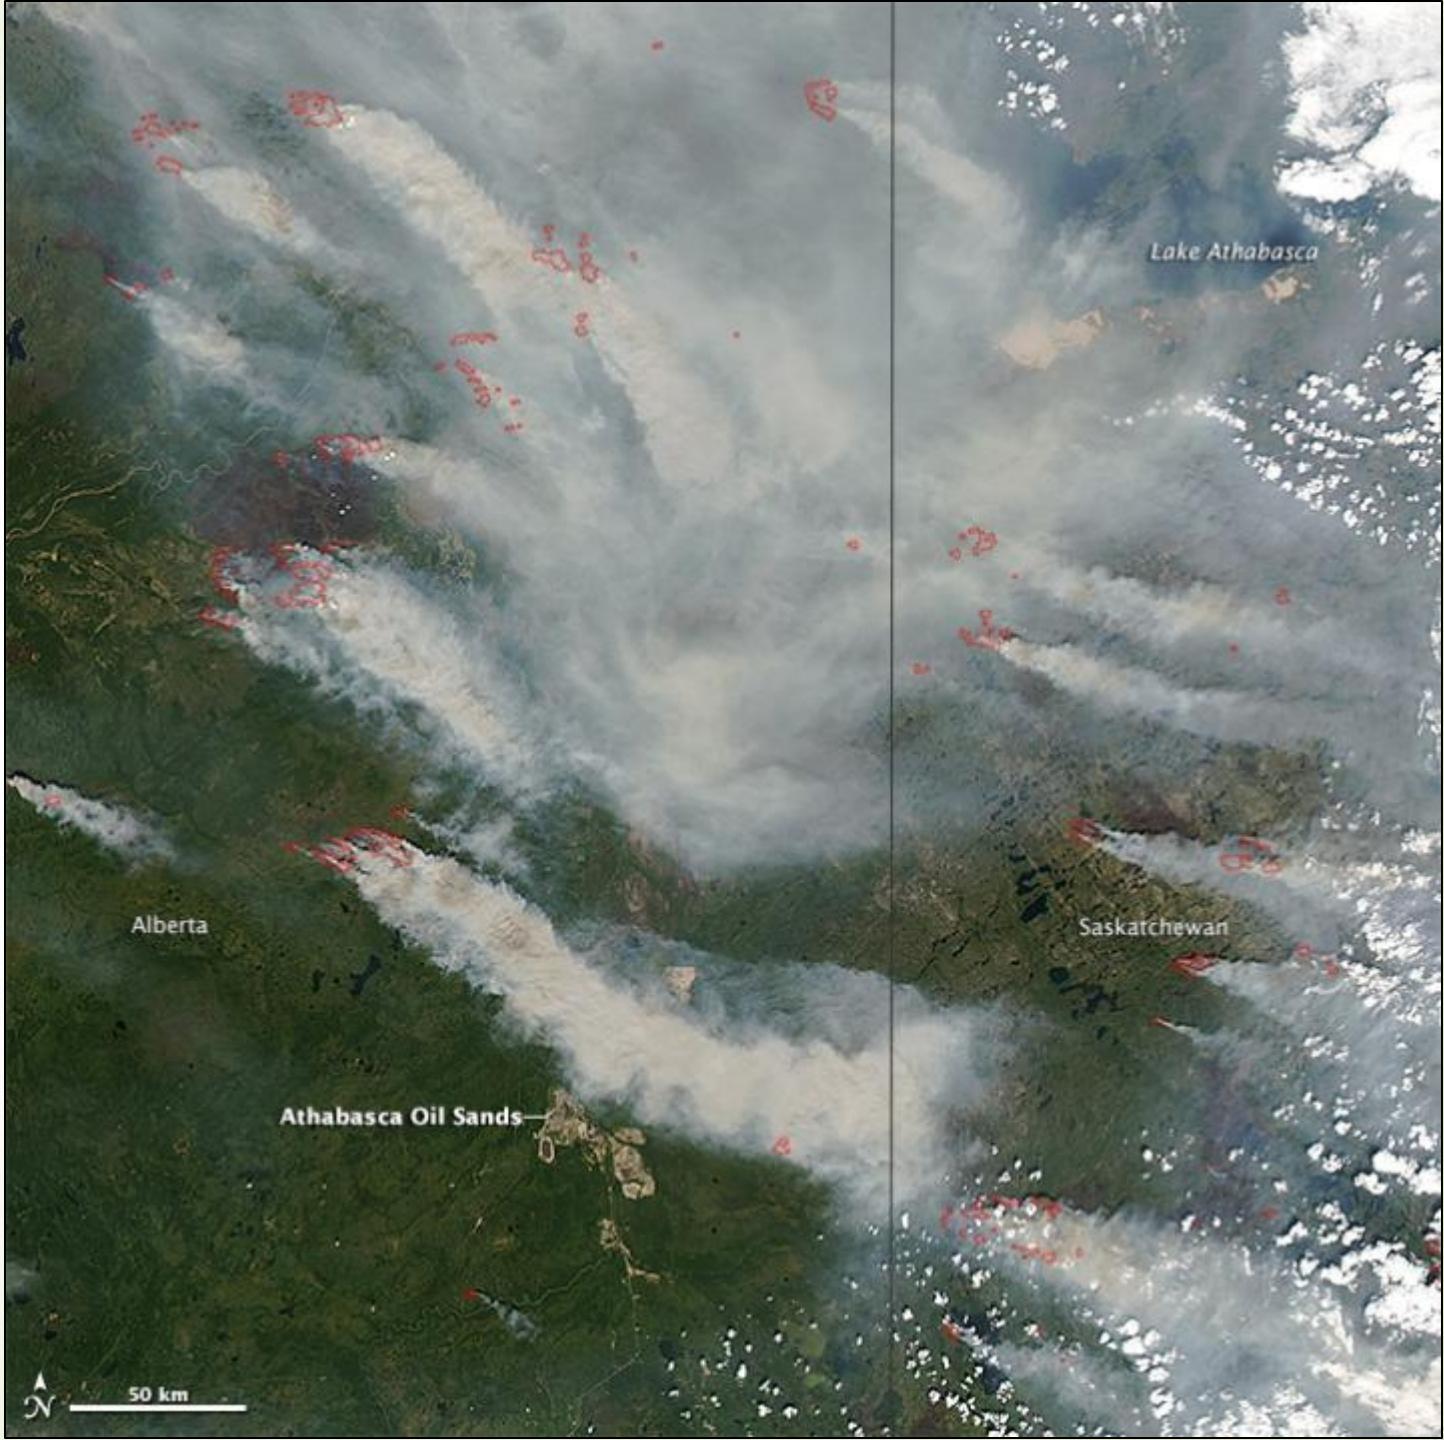

## Application #2 – Forest Fires

Aqua satellite MODIS

Wildfires in Northern Alberta and  
Saskatchewan

Summer of 2015
