

GEOG205 Quiz2: Thematic maps

1a. Value-by-Area Cartogram; scale would equate area with number of deaths

b. Africa

2a. Topological cartogram

b. It's all about connectivity and network shape, exact distances are secondary

3a. Isarithms (isolines)

b. Lines of equal magnetic declination (isogones): difference between true / magnetic north

4a. larger maple leafs for larger numbers – largest one (Vancouver) is largest; 1 is smallest

b. not consistent e.g. 2, 3, 8 are the same size, one 2 is smaller; 51 symbol is not proportional though maybe they are 'range-graded'

5a. 10

b. 13
